

All of the Software that you need for your course is currently installed on all school computers. But below is a list of software which you might want to obtain for your machine.

Microsoft Office Students can buy a copy <http://students.pugh.co.uk/> at a discounted price of around £45.

Adobe Creative Cloud Software. The University has a site license. The applications are now free to use on University Computers and Staff can also use them on personal computers. Students can also purchase this software at a discounted rate. For more info please click here :- <https://www.shef.ac.uk/cics/software/adobesitelicense>

Google Sketchup Pro is available at a student rate of around £40 from the <http://students.pugh.co.uk/>

Software Available Free of Charge

Microsoft Security Essentials is what we recommend as really good virus software for IBM Machines. For mac users should use ClamXav. (Both can be downloaded from the University website)

AutoCAD is free for students if you register at the [Autodesk Education Community website](#). All other Autodesk products are free to students from this site including 3D Studio Max. AutoCAD is available for Mac and PC.

Google Sketchup is free to download at <http://sketchup.google.com/>.

Google Earth is also free to download here: <http://earth.google.co.uk/>.

Vectorworks -is free for students if you register at <http://student.myvectorworks.net/>

Artlantis -is free for students if you register at <http://www.artlantis.com/index.php?page=education/index>
